

STR Paper Development and Membership Engagement Workshop in Santiago, Chile 2020

**Hosted by: Pontificia Universidad Católica de Chile
in Collaboration with the
Strategic Management (STR) of the Academy of Management**

The Strategic Management (STR) Division of the Academy of Management is seeking submissions for a workshop to be held at Pontificia Universidad Católica de Chile on April 24-25, 2020. This workshop aims to support the development of scholars in Latin America through a two-day research-focused workshop intended to help develop scholarly research, provide advice on paper development and the publication process, and create a forum for discussing different methodological approaches and issues. In addition, the workshop will provide an opportunity for STR members to engage with each other and the broader strategy research community in Latin America.

Workshop attendees will have the opportunity to present their original work and network with other local scholars, as well as international scholars representing the global STR community at the workshop. As part of the workshop, attendees will also participate in breakout tables addressing topics such as paper framing, research methods, and (pre-)doctoral program guidance, among others.

The format of the workshop is as follows: The first day will be dedicated paper presentation sessions by local scholars, with attending STR members serving as chairs, facilitators, and discussants. This will ensure that presenting local scholars receive appropriate, actionable feedback on their projects. The second day will involve breakout tables where participants will rotate through a set of topics, including paper framing, research methods, and (pre-)doctoral program guidance, among other relevant topics.
